

## 5min prior: Set ECHOLINK \*934

FARA Sunday/Wednesday Night Net Script (update 14 July, 2019 by KN4GDX)

QST, QST, **CALLING ALL RADIO AMATEURS**, this is (**Callsign**) activating the Fauquier Amateur Radio Association **Technical/General** Service net. This net is held weekly on **Sunday/Wednesday** at 8:00 PM local time on the 147.165 MHz W4VA repeater in Warrenton, Virginia. The FARA VHF repeater is owned and operated by the Fauquier Amateur Radio Association and uses a 167.9 Hz sub-audible (PL) tone for access. If members or other listeners would like further information, please see our website at [W4VA.org](http://W4VA.org) or send a note to [faranet@w4va.org](mailto:faranet@w4va.org).

The purpose of this net is to provide a forum for technical discussion and Q&A regarding technical topics, such as equipment hardware, computer software, antennas, operating procedures and other similar information related to the radio art.

*(Did we get any topics? If not, say so and invite walk-ons)*

**WEDNESDAY:** This is the Wednesday net, so we will have a check-in on the FARA UHF repeater immediately following this VHF Net. The UHF repeater is on 442.25 MHz (+) with the same PL.

- *ANNOUNCEMENTS (Usually upcoming events, etc.)*
- *CHECK-INS – Invite Licensed Hams to check in.*
- *At the end of CHECK-INS: NEWS (Any topics captured by the Net Operator, may be general interest or prompt discussions) (Also check for “walk-on” topics)*
- *Poll checked in amateurs for recent activities, comments on topics and other news of general interest*
- *Call for additional Check-Ins or Re-Checks*
- *When all check-ins and comments are completed .....*

This is (**Callsign**) for FARA Net. Thanks everyone for joining us tonight. If members or other listeners would like further information, please see our website at [W4VA.org](http://W4VA.org) or send a note to [faranet@w4va.org](mailto:faranet@w4va.org). FEEL FREE TO CONTINUE DISCUSSIONS ON THE THIS REPEATER.

**If you would like to make contacts via the UHF repeater, or on HF, call now and see who may be interested in scheduling a QSO.**

Thank you and good evening! 73.

## RESET ECHOLINK! \*933

**Notes:** Feel free and comfortable to adlib. Be yourself. Setting Echolink prevents it's announcements from overriding the repeater transmission.
